Additional suggestions

- so many highly irrelevant but so called mandatory works hamper the proper functioning of the semester system.Since priority has been given to furnishing of data that has nothing to do with the stakeholder's well being ,teachers find it difficult to handle classroom hours effectively.
- Experts from industry should be consulted while framing curriculum and syllabus.
- Syllabus should be developed in such a way that students could understand the basics and its current relevance rather than including heavy portions

Additional suggestions

- Should have more practical content than book oriented for today's job structure

- Its a very good college and teachers are providing a friendly environment for the students. They help students to their maximum in both academic as well as non academic areas. The only thing is infrastructure of the college which is getting improved now. So i think in the coming days entire college become well modified. If the infrastructure were good more students will be attracted and our college will give good results than any other colleges as the college have many talented faculties

- Improve advise for future studies and career related guidance. Need better quality facilities and support

- Conduct Course related Internship programmes that will helps to the students to encourage themself ..and also It will creates the Overall image of the college among +2 and other college degree students to choose our college for Higher education.....
