Additional Suggestions for Improvement SSS 2023-24

- Gave more support to extra curriculum activities especially in arts and sports
- Do Conduct test paper over a couple of weeks.
- Incorporate technology to enhance teaching and learning
- To improve Internet facilities.
- Make more effective time table for classes through students opinion.
- Sometimes outdoor classes are needed for relieving the stress generated due to the closed door classes
- The teachers firstly needed to give the students an awareness of what is the exam related topics and frequent use previous year question papers to discuss.
- Emphasize skill-based learning.
- Try to reach every student and ask for their doubts.
- The space is limited in the college
- Encourage group projects and activities to help students work together and learn from each other.
- Organize cultural and extracurricular events to help students develop life skills and confidence
- Keep the syllabus updated to match real-world needs and industry trends.
- Want to conduct orientation programmes about future study plans , more opportunities etc.
- Provide internship programs and should promote practical learning
- Conducting seminar, arranging study tour , subject related every object to study
- Promote Experiential Learning and Real-World Applications
- Implement blended learning models combining traditional teaching with digital resource.
- Foster collaborative spaces for group work and peer-to-peer learning.
- Provide regular professional development opportunities for faculty
- According to the students majority are in the opinion that the teachers of the college is doing their best to engage students in all activities which is good for them and are very supportive and always be there in academics in clearing doubts at any time and in all the other activities also
